A brief aliusion to the origin of this important discovery may not prove uninteresting. Ameng the authenticated records of the renowned Captain Cook's voyage around the world, is found the statement, that while sejourning for a short time on the Brazillan Coast of South America, he observed the natives using, in the preparation of their tood, a peculiar oil, which, upon examination, he round to posses the appearance, taste and flavor of Butter; upon further inquiry, however, he ascertained that it was simply a subscance that the natives distilled in a crude and imperfect manner from a rich and luxuriant plant that grew apontaneously and abundantly in that warm tropical country. A few years ago an eminent French chemist, while on a professional visit to the tropics, made numerous experiments with this remarkable production of nature, and succeeded in extracting a concentrated essence of the plant. The formula for its preparation, and the Sole light for the sale in this company, by whom it was proclassed from the original discoverer. may know the exact object of the Company, the third article of the charter is given entire, as follows:

"The unject of this Company is to construct or otherwas: to procure and maintain one or more steamboas, or other vessels, to ron on and navigate the Manusippi river, or its tributaries, for the purpose of carrying freight, mails and passengers: to construct docks wharves, butdings and such offer constructions as may be necessary to the building and repairing of vessels, and generally to exercise such incidental powers and privileges as are hareby or may be conserved on them for the purposes accessin.

The Company propose, under the provisions of this charter to construct a line of steamers to run between the different ports on the Massisppi river and its tributaries. They will be constructed upon the low pressure principle; they will carry less steam; they will make seller time, and be in all respe is more safe than any description of boats ever placed upon our waters. Divided into distinct compartments, if disaster, whether by five or snags, shall happen to one, the boat is not endangered. In one of fire, apparatus for turning steam upout it will be provided, and it is demonstrated that steam is the m at effective extinguisher of fire. In case one compariment is roken through by contact with snags, and fills with water, the others are not endangered, and the boat cannot sink, as pumps, provided for such an emergency, will be in instant operation. Safety to passengers and reight is a great end, worthy of the safety three hundred thousand dollars in YANNISSEE WHISKEY

HAVING LEARNED THAT PARTIES IN LOUISVILLE, CINCINNATI AND THIS CITY pretend to sell the "Yanniesee" Whisky, we hereby give notice that we will b ing suit for damages against any RESPONSIBLE party we may discover attempting to sell this orand of whisky, and will publish them as selling a SPURIOUS article. We have had the spic use and control or the "Yanniesee" brand for nearly twenty years, and none is genuine without our brand on the barreis.
